RECYCLING MATERIALS NEEDED

Room 8 needs lots of clean large plastic shopping bags from the shops e.g. farmers, Mitre 10 to make their wearable arts. No more new world bags please! The more variety of bags, colours, sizes etc. the better as their wearable arts will look more interesting! Please send to room 8. Thank You!!

We will be having a wearable arts show on 2nd December.

CHRISTMAS FLOAT

Mrs Hughes and a group of Kotuku students are working hard on our Christmas float during electives every Friday morning. The parade is on Saturday 10th December. And starts at 1pm. Waihi East school will be in it, our theme is 'NZ Summer Christmas'. If children want to be on the float they can come and talk to Mrs Hughes, we will be keen to have them! Parents who want to help set up before the parade starts would also be appreciated. Carters Contractors are supplying us with a truck so a huge thank you to them.

A life cycle of a frog

First a females frog lays about 100 eggs!

Next, Did you know that some times it takes 7 weeks to be hatched!

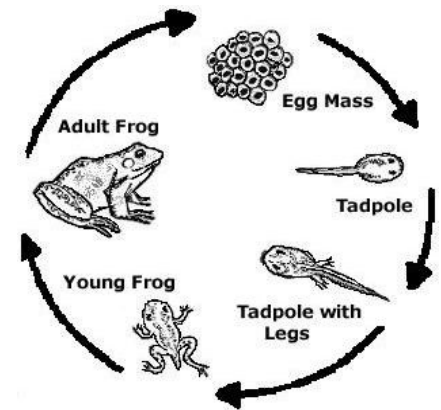

Next a baby tadpole forms in the egg.

After it wriggles its way out it grows gills and starts to be active.

Then it grows its back legs and front legs.

Last its tail starts to shrink and now it's a frog.
